

Peer Review of Scientific Information Checklist

1. Title: Plasma Metabolites and Migration Physiology of Semipalmated Sandpipers: Refueling Performance at Five Latitudes
2. Description: This manuscript describes spatial and temporal variation in plasma metabolites (triglycerides, phospholipids, B-OH-butyrate, and glycerol) of semipalmated sandpipers during winter and on migration.
3. Estimated dissemination date of the final version of the document: December 2007
4. Kind of peer review that will be conducted: Individual letters from reviewers selected by editor of scientific journal
5. Anticipated number of reviewers: 3
6. Reviewer selection method: Reviewers selected by journal *Oecologia*
7. Primary disciplines or expertise needed in the review: Reviewers will have expertise in ornithology, physiology, and migration ecology.
8. Estimated start date of peer review: April 25, 2007
9. Opportunities for the public to comment on the work product to be peer reviewed: Public comment will not be sought, but the public may comment via letters to the editor of the journal after publication.
10. Indicate whether the public, including scientific or professional organizations, will be asked to nominate potential peer reviewers: The public, including scientific and professional organizations will not be asked to nominate potential peer reviewers. Peer reviewers will be selected by the editor of the scientific journal.
